PROJECTS

Personal Design Portfolio (Current) <https://janet-portfolio-eight.vercel.app/>

Sept. 2026 – Present

Product & UX Designer

- Designed and developed current portfolio site using Claude as the primary build tool, showcasing UX case studies, visual design work, and personal branding.
- Created a cohesive design system balancing professionalism with personality through custom layouts, illustrations, and interactive elements.
- Optimized for desktop, tablet, and mobile breakpoints while improving accessibility and navigation.

Personal Design Portfolio (Previous) <https://janetsanchezportfolio.framer.website/>

March 2026 – Sept. 2026

Product & UX Designer

- Built earlier portfolio version in Framer to showcase UX case studies, visual design work, and personal branding.
- Created a cohesive design system through custom layouts, illustrations, and interactive elements.
- Documented the complete design process for each project, from research and ideation through prototyping and final reflection.

HydraBloom

Jan. 2026 – March 2026

UX/UI Designer

- Led end-to-end design of HydraBloom, a mobile app helping users build sustainable hydration habits through gamification and behavioral design.
- Conducted user research interviews to identify pain points around hydration, uncovering opportunities for reminders, motivation, and habit formation.
- Synthesized research findings into user personas, user flows, wireframes, and high-fidelity prototypes using Figma.
- Designed a cohesive visual system inspired by the water cycle, reinforcing consistency through garden growth mechanics and positive feedback loops.
- Iterated on the product through usability testing, refining navigation, onboarding, and information architecture based on participant feedback.
- Built and published the case study originally in Framer and later migrated to Claude, documenting the complete design process.
